FROM: James V. Hirsch
Acting Deputy Director for Science and Technology

SUBJECT: DS&T Weekly Activities for 17 August 1984

Of Special Interest This Week

- For Ambassador Jonathan Dean, former head of the U.S. delegation to the MBFR talks, currently a consultant with the State Department, FBIS analysts provided information on Soviet media treatment of the "homing overlay experiment" -- the 11 June U.S. test of components of a ballistic missile defense system. Moscow condemned the test as a "dangerous step" and in one instance accused the United States of attempting to provoke the Soviet Union into taking countermeasures.

MEMORANDUM FOR: Acting Director of Central Intelligence

SUBJECT: Weekly Report

Items of Interest

1. Computer Fraud

We were successful this past week in coordinating a Community-wide position with respect to protecting the Community equities in H.R. 5616 which is presently under consideration in the Senate. NSA has accepted a blanket clause protecting law enforcement and intelligence agencies.

2. Polygraph Bill

The Agency has been invited to testify on H.R. 4681 before the Armed Services Subcommittee on 6 September. NSA and DoD will also appear, and the hearing will cover only the issue of polygraph usage and not address credit card fraud. Armed Services would like to hold an open hearing, but this is not firm yet. [redacted] is the scheduled Agency witness, and a meeting with NSA and DoD to coordinate testimony will be held.

I will be on leave 20 August through 4 September. [redacted] will be in charge.

Cord Meyer advises that Senators Baker, Biden, and Nunn, as well as Representative Hyde, have been very complimentary regarding Cord's column on the need to combine the Oversight Committees. All are for it and are working to gather support.

25X1

[redacted]

As an invited observer, I attended a meeting at The White House of the revivified KAL 007 work group. I am satisfied that The White House, supported by all other involved government agencies--NSC, NSA, Defense, State, USIA, FAA, etc.--is taking steps to cope with what will be a substantial amount of commentary on the 31 August anniversary of the incident. Burt in State will appear on the 20/20 Program, which apparently questions the U.S. Government version of the affair, and others are being enlisted to do the same on other programs and before interested groups.
